## Attendees

Samarth, Priyank, Parth, Harsh, Kishan, Preyanshu, Dhruv, Yugam

## Agenda

Discussion about "Where to Start?" the project

## Notes

### Meeting Details

1. Goal
  - In this meeting, we are going to explore the basic requirements of Software engineering for a project which a project should have at starting.
2. Discussion
  - In this meeting, all the team members have surfed on the internet about these different requirements for a project in software engineering.

■

## Action Items

1. Discussion
  - Everybody was suggested to refer the following frameworks and attend the next meeting with prior knowledge for better understanding in the meeting discussion.
    - Team members are requested to come with prior knowledge on the given frameworks:
      - Spiral
      - Incremental
      - Agile
        - Scrum

- Kanban
  - Spiral
  - XP
  - FDD
  - DSDM
- A detailed discussion on each of the framework would be done and pros and cons would be compared.
  - In the meeting, all the team members have surfed on the internet about these different requirements for a project in software engineering.
2. Conclusion
- We come up with the conclusion of making the first move by selecting a model for the project, after a discussion.

## Next Meeting Agenda

Model selection
