# Definition Of One

TaskX - "Get organized. Work smarter. Stay Motivated"

### 1. Purpose of this document

#### • What is the definition of done?

■ The Definition of Done (DoD) is when all conditions, or acceptance criteria, that a software product must satisfy are met and ready to be accepted by a user, customer, team or consuming system.

#### o Importance of this document!

- Sharing a common vision for what the end result should be is a good place for any project to start. With the ambiguity removed, everyone can concentrate on their core responsibilities instead of arguing later on in the process about fitness for release.
- We must define the DoD to ensure quality. It will prevent features that don't meet the definition from being delivered to the customer or user.
- It lowers rework, by preventing user stories that don't meet the definition from being promoted to higher level environments.

#### 2. Definition of Done

- Definition of Done on the delivery level is based on the user stories.
- Definition of Done based on the features may mean it qualifies to add to a release.
- Definition of Done based on epics may refer to an organizational strategic priority, portfolio plan item, or some other collection of features that satisfied a market head.
- For the proposed project, we will follow DoD based on the features. Checklist for feature is done includes:
  - Acceptance criteria met
  - Code Reviewed
  - Regression Tests Pass
  - Unit Testing Pass
  - Non-Functional Requirements met
  - Integrated into a clean build

## 3. Definition of Done checklist for all modules

| No. | Feature                  | Acceptance<br>criteria met | Code reviewed | Regression tests pass | Unit Testing pass | Non-Functional requirements met | Integrated into a clean build |
|-----|--------------------------|----------------------------|---------------|-----------------------|-------------------|---------------------------------|-------------------------------|
| 1   | Landing Page             | ~                          | <b>~</b>      | <b>~</b>              | ~                 | <b>✓</b>                        | ~                             |
| 2   | Google Sign-in           | ~                          | ~             | ~                     | ~                 | ~                               | ~                             |
| 3   | Area of Interests        | <b>~</b>                   | <b>~</b>      | $\checkmark$          | ~                 | ~                               | <b>~</b>                      |
| 4   | Add tasks                | ~                          | ~             | ~                     | ~                 | ~                               | ~                             |
| 5   | View Tasks               | ~                          | <b>~</b>      | <b>~</b>              | ~                 | <b>✓</b>                        | ~                             |
